*NCDHD is using the state reporting system's recovered indicator to report active cases. At this time, each case is being automatically converted at 30 days to a recovered case by the state system, rather than after isolation ends which is typically at 10 days.

** On Thursday, October 28th, 2021 the State announced that there was duplication in the reporting of some of Kentucky's COVID-19 vaccine data which resulted in some of the data being counted twice. As a result, the State's (and the counties) total number of unique vaccinations is lower than what's been previously reported. This error has since been corrected.
