**North Central District Health Department has three new lab-confirmed cases, two in Shelby County and one in Trimble County increasing the district case count to 35. Two individuals monitored by North Central District have been released from isolation.**

Shelby County, KY – North Central District Health Department has three new cases that have tested positive for the Novel Coronavirus (COVID-19). Two adult females from Shelby County, both are in self-isolation at home. An adult male from Trimble County also tested positive is currently in self-isolation at home.

North Central District has released two individuals from isolation one from Shelby County and the other from Trimble County, by monitoring their symptoms and complying with a self-isolation agreement with the Health Department.

“Some people may confuse isolation with quarantine. Those who are in isolation are sick and infectious and should separate themselves from those who are not sick to include members in their household. Those who are in quarantine have been exposed to someone who is sick and need to separate themselves from others, so they do not infect other if they become sick.”, said Roanya Rice, Public Health Director of NCDHD

## North Central District Health Department
