**North Central District Health Department regrettably announces the first death in Henry County due to complications from the Novel Coronavirus (COVID-19). Ten new lab-confirmed cases, eight in Shelby County, one in Spencer County, and one in Henry County; increasing the district case count to 329.**

**Shelby County, KY** – Henry County has had its first COVID-19 related death in an elderly Hispanic female; our hearts and prayers go out to her family and friends.

North Central District Health Department has ten new cases that tested positive for the Novel Coronavirus (COVID-19).

- One pediatric Hispanic male from Shelby County in self-isolation at home.
- Two adult Hispanic males from Shelby County in self-isolation at home.
- Three adult Hispanic females from Shelby County in self-isolation at home.
- One adult Caucasian female from Shelby County in self-isolation at home
- One adult African American female from Shelby County under medical care
- One adult Hispanic female from Henry County in self-isolation at home.
- One adult Caucasian male from Spencer County in self-isolation at home.

"The Health Department will begin moving our personnel from COVID-19 testing to contact tracing and everyday operations. Contact tracing is primarily the responsibility of the health department since no other entity does this work. A list of alternative testing sites will be posted on our website today. Beginning the week of June 14, the clinics will be open to in-person appointments for all services, except for WIC, which will remain remote and telephonic at this time. This includes immunizations for all ages, well-child exams, family planning exams, and STD exams and counseling.", said Roanya Rice, Public Health Director of NCDHD

North Central District  
Health Department

COVID-19 Summary as of 6/12/2020
