“North Central District Health Department and the University of Kentucky HealthCare systems; are providing multiple free Narcan events this week. Narcan is a medication used to rapidly reverse an opioid overdose in a life-threatening incident to anyone at any age. A rise in overdose deaths has been reported since the beginning of the Coronavirus pandemic; having this lifesaving medication in your home may potentially help save a life. Please visit our site at <https://www.ncdhd.com/calendar> to view the times and locations of these events.”, said Roanya Rice, Public Health Director of NCDHD.
