- 1 pediatric Caucasian male in self-isolation at home.

North Central District released fifty-four individuals from isolation; thirty-seven from Shelby County, fifteen from Spencer County, one from Henry County, and one from Trimble County monitored their symptoms and complied with a self-isolation agreement with the Health Department.

“North Central District is experiencing high daily totals of Covid-19 positive cases. With 3 out of 4 of our counties displaying higher levels of positive Covid-19 cases with community-wide spread. Increasing Covid testing of community members and contact tracing all confirmed positives is essential to protect our citizens. Community-wide masking compliance, social distancing, and proper hygiene are the most effective factors in reducing the total positive cases. COVID 19 testing is available at NCDHD’s clinic locations in Henry, Shelby, Spencer, and Trimble counties. I urge community members to wear a mask even when gathering in small groups and with your inner circles outside of your immediate family. This is the strategy that can have the greatest impact on slowing the spread of the virus as we are clearly in an escalation”, said Roanya Rice, Public Health Director of NCDHD.
