*“It is an exciting day! The COVID 19 vaccine has started to arrive for our frontline healthcare workers, Emergency Responders, Nursing Home staff, and residents who are amongst the most at-risk populations. With these historic first steps, which will help us gain relief from this virus, now is the time to double down on our efforts to maintain everyone’s safety by continuing to wear a mask, watching our separation distance, and washing our hands. Help us, help you by getting the vaccine when it is your turn.”, said Roanya Rice, Public Health Director of NCDHD.*
