Hispanic	800	10.9%
African American	361	4.9%
Caucasian	6146	83.6%
Asian	33	0.4%
Other	13	0.2%

*“With the Covid-19 vaccine starting to roll out to segmented areas of the population, we all need to remain vigilant with our health precautions. Maintaining a 6-foot social distance from others is important to provide a separation barrier to prevent easily transmitted airborne disease. Properly washing your hands removes dirt, bacteria, and viruses that could potentially cause an infection that would result in illness. Properly wearing and well-fitted masks is important during this global pandemic to help resist respiratory droplets from entering your lungs that could also cause infection. Following these health precautions and receiving your COVID vaccine will help combat this virus. ”, said Roanya Rice, Public Health Director of NCDHD.*

\*Numbers are reported by zip code which may cause some number movement between counties.
