African American	354	5.0%
Caucasian	5903	83.3%
Asian	31	0.4%
Other	13	0.2%

“North Central District Health Department will be providing primary (1st) Covid-19 vaccine doses in the coming weeks; an online self-scheduler will be loaded on our website with available appointments to select as vaccine supply becomes available. To be eligible to schedule an appointment, you must be in Phase 1a and 1b and live or work in one of the four counties in our district. Identification will be required at the vaccine clinics. Each week we will load additional appointments as vaccine supply allows. Monitor our website at NCDHD.com daily for updates.

North Central District Health Department is transitioning to a District Approach with the vaccine clinic site location. Our vaccination clinics will be centrally located in Shelbyville, KY. In using a centrally located facility will allow NCDHD to administer vaccine more quickly, be more efficient, serve more community members within the targeted phases and eliminate the need to transfer the vaccine to remote locations. “, said Roanya Rice, Public Health Director of NCDHD.

*Numbers are reported by zip code which may cause some number movement between counties.
